

## Mini Quiz 1 Topic List

Mini Quiz 1 covers material from **Labs 1-4**. The following is a summary of what you should know.

- Variables Types and Operations
  - Arithmetic operations: adding, subtracting, multiplying and dividing.
  - Modulus (%)
  - Careful of mixing types (i.e. integer division results in integer answer)
  - Typecasting
- How to use `cin` and `cout` for input and output.
- How to format your output (e.g. putting some information on different lines)

You will complete the quiz **on paper** during class. You will not be allowed to use the computer or any other reference material.
